

Danni Deng

Hi My name is Danni Deng, I'm 24 years old and I am currently studying industrial design at Jiangnan University. I am doing the final year of my master program. In design area, I got so much interests in design for elderly especially the user experience. I would like to bring happiness to the old by creating special user experiences. In daily life, I enjoy music and arts. I like singing, painting and photography...also facial arts! All my hobbies diversify my way of self-expressing. To some degrees, music and arts bring me energy and my passion push me to explore more things including design.
